TUCK'S POST CARD

CARTE POSTALE.

POSTKARTE.

Royal Museum. This (sometimes called also the Old Museum) was built 1824—1828 by Schinkel, and is a handsome rotunda with an Ionic portico of eighteen massive columns. Before it stand two large groups in bronze, colossal bronzes stand at the corners of the portico, and within is an almost unequalled gallery of sculptures of the Christian epoch, and a picture gallery as historically complete as the National Gallery.

(FOR ADDRESS ONLY.)

Processed in Bavaria.
